FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Hello,

I have been a Amateur Radio operator for 10 1/2 years now. It has been my goal since my grandfather past away in 1985 get my radio licences when he died. I had many peices of radio equipment lying around and

not in use. And now in use I would like to leave to my children someday, but do to giving the Amateur bands away for money and over to private commerical bands that will be no dream.

Also, take for granted the 2 meter part of the ham band the most favoriote band is also being attacked. I love this wonderful hobbie and it has alowed me to expand my electronic abilities to this service and help it grow.

Well anyway you are willing to give up the 440 amateur radio band where I have a repeater in operation. It has been my long time goal in putting it on the airways for may hams to enjoy. So PLEASE do not give this band away to the Land Mobile service. There are many repeaters in operation and the radio equipment we have will be useless to us and a waste of money and no use to us.

Thank you for your

As an licensed amateur radio operator of the FCC .I would like to say that I strongly oppose to RM-9267.The 440 band has been helpful to assist durning servere weather with skywarn and other emergency communications.most helpful at times of tornado's outbreaks before and after.so please reconsider this before it's too late.Thank's

Sirs:

I am definitely opposed to RM-9267 and giving away 70 centemeters to commercial use. Thank you for your consideration in this matter.

**Subject:** Comments to the Chairman

Joseph H. Weir (joe@suninternet.com) writes:

Dear Mr. Chairman,

I am an Amateur Radio Operator in Jacksonville, FL. (KB4FOS) concerned about the Land Mobile Communications Council's proposal, RM 9267, to reallocate the 70 cm amateur band. The 440-450 mhz band is actively being used here in Jacksonville by the amateur radio community and should be left intact. Any change to the present allocation and use would have a serious and detrimental effect on the effectiveness of amateur communications during emergencies and natural disasters. Please reject RM 9267 and preserve the integrity of this spectrum.

Sincerely,

Joseph H. Weir  
7359 Pineville Dr.  
Jacksonville, FL 32244
